Juice Box Instructions

Billet Aluminum Tuned Boost Box

- 1) Remove plastic engine cover.
- 2) Remove carburetor and intake manifold.
- 3) Using new gaskets and bolts, install Juice Box between intake manifold and cylinder.
- 4) Re-install carburetor.
- 5) Cut and install plastic engine cover to fit around Juice Box.
- 6) Carburetor tuning may be required for maximum performance. In our testing a leaner setting was required. Ultimately, it is your responsibility for proper carb tuning.

Performance benefits:

Improved throttle response, quicker acceleration, and overall performance.
Can increase top speed by as much as 2mph.
Reduces intake noise.

Purpose:

Acts as a tuned reservoir for the fuel/air mixture, allowing the engine to quickly draw on it.
